

Why do some of the world's greatest musicians pick Fane?

The answer... because they are the tones and sounds that forged a generation!

...Close your eyes and drift back to another era, it's the sixties and the birth of British backline amplification. With many of the bands that forged the songs, styles and tones of this era achieving cult status, they have served as inspiration for performers ever since.

Renowned the world over and performed through by legendary British bands, The Who, Rolling Stones, Pink Floyd and many, many more Fane guitar loudspeakers have become much sought after by guitarists searching for their unique tonal quality. Famous British brands such as Hiwatt chose to equip their cabinets with Fane and with it the signature to iconic British tone.

Fast forward to the new millennium and those legendary guitar speakers are back! Faithful to the original blueprints and incorporating the same British manufactured cones and made in exactly the same way as the originals forty years ago the new generation of Fane guitar loudspeakers are here!

All featured artists utilise a **FANE EQUIPPED**  **backline to create their own unique sound**
